PROFESSIONAL SUMMARY

Experienced Full Stack Developer with expertise in front-end development using React.js. Proficient in JavaScript, HTML, CSS, and related technologies. Skilled in translating project requirements into visually appealing and user-friendly interfaces. Strong problem-solving skills and attention to detail, with a proactive and collaborative approach. Committed to staying current with emerging trends and best practices in frontend development to drive technological advancement and deliver cutting-edge solutions.

PROJECTS

1. in.indeed.com |

- Developed a clone project aiming to replicate the core functionality and user interface of indeed.com, a popular job search platform
- Implemented features such as user registration and profile creation, job listings with search and filter options, resume upload and application process, company profiles, job alerts, and user reviews and ratings
- Utilized *HTML*, *CSS*, *JavaScript*, and *React.js* to build an interactive and responsive web application

2. Nordstrom Rack Online & In Stock | JavaScript | React | Git | RESTful APIs | HTML5 | CSS3 | Responsive Web Design

- Collaborated with designers to recreate Nordstrom Rack's user interface using React.js, ensuring a visually appealing design.
- Developed high-quality, reusable, and scalable code with React.js and relevant frontend technologies.
- Implemented responsive design techniques to ensure compatibility across various devices and browsers.
- Integrated frontend components with RESTful APIs to ensure smooth and dynamic product listings and checkout process.
- Conducted thorough testing and debugging to guarantee the reliability and stability of the online store application.

3. Tata-1mg |

JavaScript | Git | HTML5 | CSS3 | Responsive Web Design

- Replicated the look and feel of the TATA_1mg website using HTML and CSS, ensuring consistent layout and colors.
- Developed responsive designs to provide optimal performance across various devices and browsers.
- Implemented JavaScript functionalities to add interactivity and enhance user experience.
- Ensured cross-browser compatibility to deliver a consistent user experience on multiple platforms.
- Used Git for version control to manage project changes and facilitate collaborative workflows.
